

EN 15316-4-3 for calculating the heat generation of a solar thermal system

Category:	Ordinance Components - Calculation Procedures
Tool-ID:	3.2.2
Type:	EN Standard (external tool)
Date:	2007
Developer:	CEN
Language(s):	Englisch
Size:	49 pp
Description:	This European Standard presents a calculation method for the heat produced by solar thermal plants. The method can be used as reference calculation procedure within a STO. The full title of the standard is: <i>EN 15316-4-3 : Heating systems in buildings - Method for calculation of system energy requirements and system efficiencies - Part 4-3: Heat generation systems, thermal solar systems.</i>
